

Easy Read - Risk Assessment

	Your safety and wellbeing is our main priority.
	We will assess your risks regularly. Your risk assessment starts at your initial intake, and then at least annually.
	When your situation changes, we will undertake another risk assessment.
	A risk is when it is probable that a specific event or activity may lead to you or someone else being hurt.
	We assess risks by asking: • What could go wrong? • How often? • How bad could it be? • Is there action needed?
	A strategy will be written for any risk and recorded in your Individual Employment Plan
	We will discuss your risks and their strategies with you.
	If we think an activity has a high real or potential risk, we will talk to you about the risks. You can still undertake this activity (Informed-Consent).

Easy Read - Risk Assessment

Our environment is checked for:

- Trips, slips and fall hazards
- Electrical hazards – cords, power points
- Hot water temperature
- Physical environment – stairs, handrails, waste management.

Your emotional environment is checked to ensure the people around you are supportive and not hurting you.

We look for risks, so we can get rid of them, or reduce them.

We will create and train staff in your risk strategies.

If your needs change, then we will review your risks and make changes if it is needed.
